

CD47 rabbit pAb**Cat#: orb767114 (Manual)**

For research use only. Not intended for diagnostic use.

Product Name	CD47 rabbit pAb
Host species	Rabbit
Applications	WB;IHC;IF;ELISA
Species Cross-Reactivity	Human;Rat;Mouse;
Recommended dilutions	Western Blot: 1/500 - 1/2000. IHC-p: 1/100-1/300. ELISA: 1/20000. Not yet tested in other applications.
Immunogen	The antiserum was produced against synthesized peptide derived from the Internal region of human CD47. AA range:61-110
Specificity	CD47 Polyclonal Antibody detects endogenous levels of CD47 protein.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide..
Storage	Store at -20°C. Avoid repeated freeze-thaw cycles.
Protein Name	Leukocyte surface antigen CD47
Gene Name	CD47
Cellular localization	Cell membrane ; Multi-pass membrane protein .
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Clonality	Polyclonal

Concentration	1 mg/ml
Observed band	35kD
Human Gene ID	961
Human Swiss-Prot Number	Q08722
Alternative Names	CD47; MER6; Leukocyte surface antigen CD47; Antigenic surface determinant protein OÁ3; Integrin-associated protein; IAP; Protein MER6; CD47

Background

This gene encodes a membrane protein, which is involved in the increase in intracellular calcium concentration that occurs upon cell adhesion to extracellular matrix. The encoded protein is also a receptor for the C-terminal cell binding domain of thrombospondin, and it may play a role in membrane transport and signal transduction. This gene has broad tissue distribution, and is reduced in expression on Rh erythrocytes. Alternatively spliced transcript variants have been found for this gene. [provided by RefSeq, Jul 2010],

Western Blot analysis of 3T3 cells using CD47 Polyclonal Antibody. Secondary antibody(catalog#:RS0002) was diluted at 1:20000

Immunohistochemical analysis of paraffin-embedded human-Lymph-nodes, antibody was diluted at 1:100
