

PDGFR-α (phospho Tyr754) rabbit pAb

Cat#: orb769408 (Manual)

For research use only. Not intended for diagnostic use.

Product Name PDGFR-α (phospho Tyr754) rabbit pAb

Host species Rabbit

Applications WB;IHC;IF;ELISA

Species Cross-Reactivity Human; Mouse; Rat

Recommended dilutions Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. ELISA:

1/5000. Not yet tested in other applications.

Immunogen The antiserum was produced against synthesized peptide derived from

human PDGFR alpha around the phosphorylation site of Tyr754. AA

range:721-770

Specificity Phospho-PDGFR-α (Y754) Polyclonal Antibody detects endogenous levels

of PDGFR-α protein only when phosphorylated at Y754.

Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium

azide..

Storage Store at -20°C. Avoid repeated freeze-thaw cycles.

Protein Name Platelet-derived growth factor receptor alpha

Gene Name PDGFRA

Cellular localization Cell membrane; Single-pass type I membrane protein. Cell projection,

cilium . Golgi apparatus .

Purification The antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using epitope-specific immunogen.

Clonality Polyclonal

Explore. Bioreagents.

Concentration 1 mg/ml

Observed band 122kD

Human Gene ID 5156

Human Swiss-Prot Number P16234

PDGFRA; PDGFR2; RHEPDGFRA; Platelet-derived growth factor receptor **Alternative Names**

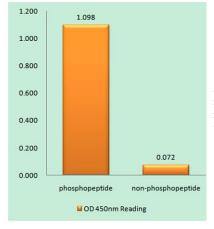

alpha; PDGF-R-alpha; PDGFR-alpha; Alpha platelet-derived growth factor receptor; Alpha-type platelet-derived growth factor receptor; CD140 antigen-

like family member A; CD14

Background This gene encodes a cell surface tyrosine kinase receptor for members of the

platelet-derived growth factor family. These growth factors are mitogens for cells of mesenchymal origin. The identity of the growth factor bound to a receptor monomer determines whether the functional receptor is a homodimer or a heterodimer, composed of both platelet-derived growth factor receptor alpha and beta polypeptides. Studies suggest that this gene plays a role in organ development, wound healing, and tumor progression. Mutations in this gene have been associated with idiopathic hypereosinophilic syndrome, somatic and familial gastrointestinal stromal

tumors, and a variety of other cancers. [provided by RefSeq, Mar 2012],

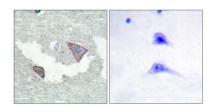

Enzyme-Linked Immunosorbent Assay (Phospho-ELISA) for Immunogen Phosphopeptide (Phospho-left) and Non-Phosphopeptide (Phospho-right), using PDGFR alpha (Phospho-Tyr754) Antibody
