

Product Datasheet

Vazyme - Annexin V-PE/7-AAD Apoptosis Detection Kit (A213-01)

Description Using phycoerythrin (PE) to label Annexin V. The labeled Annexin V retains a high affinity for PS an...

Storage Store at 2 ~ 8°C. Protect Annexin V-PE and 7-AAD staining solution from light and do not freeze. Adjust the shipping method according to the destination.

Note For research use only

Application notes Double label: Annexin V-PE and 7-AAD; distinguish cells at different stages of apoptosis (early / late apoptotic)
Additional features: Red fluorescent label for easy co-labeling with other green fluorescents such as GFP
High binding efficiency: Annexin V conjugates have higher binding efficiency and extremely accurate characterization of the apoptotic process

Expiration Date 12 months from date of receipt.
