

## Product Datasheet

# Vazyme - Annexin V-PE/7-AAD Apoptosis Detection Kit (A213-02)

**Description** Using phycoerythrin (PE) to label Annexin V. The labeled Annexin V retains a high affinity for PS an...

**Storage** Store at 2 ~ 8°C. Protect Annexin V-PE and 7-AAD staining solution from light and do not freeze. Adjust the shipping method according to the destination.

**Note** For research use only

**Application notes** Double label: Annexin V-PE and 7-AAD; distinguish cells at different stages of apoptosis (early / late apoptotic)  
Additional features: Red fluorescent label for easy co-labeling with other green fluorescents such as GFP  
High binding efficiency: Annexin V conjugates have higher binding efficiency and extremely accurate characterization of the apoptotic process

**Expiration Date** Please enquire.
