

Product Datasheet

Vazyme - RoomTemp Sample Lysis Kit (P073-01)

Description This kit is a simple and rapid reagent for blood lysis at room temperature. This kit contains Lysis ...

Storage Store at 2°C ~ 8°C for up to 12 months, and transport at 2°C ~ 8°C.

Note For research use only

Application notes Simple operation: 3 minutes at room temperature, no need for complex template extraction. High lysis efficiency: The lysis reagent has the same effect as traditional kits for extracting genome. Wide range of applications: Compatible with Taqman probe method for SNP detection, qPCR probe method quantification, PCR amplification and other sample compatibility: lysis of fresh blood, frozen blood, conventional anticoagulant blood, tissue homogenate, oral swabs, Various samples such as FTA card.

Expiration Date Please enquire.
