

## Product Datasheet

# Vazyme - HiScript II One Step RT-PCR Kit (Dye Plus) (P612-01)

**Description** The HiScript II One Step RT-PCR Kit (Dye Plus) is designed for end-point PCR detection with RNA as t...

**Storage** Store at -30 ~ -15°C and transport at ≤ 0°C.

**Note** For research use only

**Application notes** Reverse transcription and PCR in the same tube  
Detection from 1 pg of total RNA  
Able to amplify fragments longer than 10 kb  
Direct loading of the PCR product onto agarose gels

**Expiration Date** Please enquire.
