
Product Datasheet

Furin Recombinant Protein (orb1230574)

Description

Furin Recombinant Protein

Target

FURIN

Form/Appearance

Lyophilized

Storage

The lyophilized Furin recombinant protein is stable for at least 2 years from date of receipt at -20°C. Reconstituted Furin stable for at least 3 months when stored in working aliquots with a carrier protein at -20°C. As with any protein, exposing Furin recombinant protein to repeated freeze / thaw cycles is not recommended. When working with proteins care should be taken to keep recombinant protein at a cool and stable temperature.

Note

For research use only
