

Product Datasheet

APH1A Antibody (orb1240222)

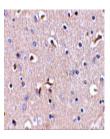

www.biorbyt.com

A B

24-

Western blot analysis of APH1 in RAW264....

Immunohistochemistry of APH1 in human br...

Descriptionnts. APH1A Antibody

Species/Host Rabbit

Reactivity Human, Mouse, Rat

Conjugation Unconjugated

Tested ELISA, IHC-P, WB

Applications

Immunogen APH1 antibody was raised against a 18 amino acid

synthetic peptide from near the center of human APH1.The immunogen is located within amino acids

80 - 130 of APH1.

Target APH1A

Preservatives APH1 Antibody is supplied in PBS containing 0.02%

sodium azide.

Form/Appearance Liquid

Concentration 1 mg/mL

Storage APH1 antibody can be stored at 4°C for three months

and -20°C, stable for up to one year. As with all antibodies care should be taken to avoid repeated freeze thaw cycles. Antibodies should not be exposed to prolonged high temperatures.

Note For research use only

Application notes APH1 antibody can be used for detection of APH1 by

Western blot at 0.5 - 1 μ g/mL. Despite its predicted molecular weight, APH1 protein often migrates at aberrant locations in SDS-PAGE. Antibody can also be used for immunohistochemistry starting at 5 μ g/mL. Antibody validated: Western Blot in mouse samples and Immunohistochemistry in human samples. All other applications and species not yet

tested.

Isotype IgG

Clonality Polyclonal

MW Predicted: 29 kDa Observed: 28 kDa

Uniprot ID Q96BI3

NCBI AAH08732

Dilution Range APH1 antibody can be used for detection of APH1 by

Western blot at $0.5 - 1 \mu g/mL$. Despite its predicted molecular weight, APH1 protein often migrates at aborrant locations in SDS PAGE. Aptibody can also
