
Product Datasheet

Human Trefoil Factor 1 (rHuTFF-1) (orb1494936)

Description

The Trefoil Factor peptides (TFF1, TFF2

gastrointestinal tract, and a...

Endotoxins

Less than 1EU/µg of rHuTFF1 as determined by LAL method.

Preservatives

Lyophilized from a 0.2µm filtered concentrated solution in 20mM PB, pH 7.4, 150mM NaCl.

Form/Appearance

Sterile Filtered White lyophilized (freeze-dried) powder.

Storage

This lyophilized preparation is stable at 2-8°C, but should be kept at -20°C for long term storage, preferably desiccated. Upon reconstitution, the preparation is stable for up to one week at 2-8°C. For maximal stability, apportion the reconstituted preparation into working aliquots and store at -20°C to -70°C. Avoid repeated freeze/thaw cycles.

Note

For research use only

Application notes

We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Reconstitute in sterile distilled water or aqueous buffer containing 0.1% BSA to a concentration of 0.1-1.0 mg/mL. Stock solutions should be apportioned into working aliquots and stored at -20°C. Further dilutions should be made in appropriate buffered solutions.

Protein Sequence

EAQTETCTVA PRERQNCGFP
GVTPSQCANK GCCFDDTVRG
VPWCFYPNTI DVPPEEECEF

Source

Escherichia coli

MW

13.2 kDa homodimeric protein consisting of two 60 amino acid polypeptide chains, which includes a 40-amino acid trefoil motif containing three conserved intramolecular disulfide bonds.

Expiration Date

6 months from date of receipt.
