Recombinant Human Fractalkine (CX3CL1) (orb1673859)

Description	Recombinant Human Fractalkine (CX3CL1)
Form/Appearance	Lyophilized from a 0.2µm filtered solution in 20mM phosphate buffer and 50mM NaCl, pH 7.4
Concentration	1.0 EU/µg of recombinant protein as determined by the LAL method.
Storage	The lyophilized protein is stable for at least one year from date of receipt at -70°C. Upon reconstitution, this cytokine can be stored in working aliquots at 2° - 8°C for one month, or at -20°C for six months, with a carrier protein without detectable loss of activity. Avoid repeated freeze/thaw cycles.
Note	For research use only
Purity	> 95% as determined by SDS-PAGE
Source	E. coli
MW	8.9 kDa
Solubility (25°C)	A quick spin of the vial followed by reconstitution in sterile distilled water to a concentration not less than 0.1 mg/mL. This solution can then be diluted into other buffers.
Expiration Date	6 months from date of receipt.
