

Product Datasheet

Human Flt3L(FMS-like Tyrosine Kinase 3 Ligand) ELISA Kit (orb1807528)

www.biorbyt.com

Descriptionnts. Human Flt3L(FMS-like Tyrosine Kinase 3

Reactivity Human

Range 15.63-1000 pg/mL

Target Flt3L

Note For research use only

Application notes This ELISA kit uses the Sandwich-ELISA

principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human Flt3L.

Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human Flt3L and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to

each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human Flt3L, biotinylated detection antibody and

Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical

density (OD) is measured

spectrophotometrically at a wavelength of

450 nm ± 2 nm. The OD value is proportional to the concentration of Human Flt3L. You can calculate the concentration of Human Flt3L in the samples by comparing the OD of the samples to the standard curve.

Sample Types serum, plasma, Tissue homogenate and

Other biological samples

Sensitivity 5.47 pg/mL

Expiration Date Please enquire.
