

## Product Datasheet

# Canine CCK(Cholecystokinin) ELISA Kit (orb1946489)

<b>Description</b>	Canine CCK(Cholecystokinin) ELISA Kit
<b>Reactivity</b>	Canine
<b>Range</b>	15.63-1000 pg/mL
<b>Target</b>	CCK
<b>Note</b>	For research use only
<b>Application notes</b>	<p>This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Cholecystokinin(CCK) protein. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Cholecystokinin(CCK). Next,Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of <math>450\text{nm} \pm 10\text{nm}</math>. The concentration of Cholecystokinin(CCK) in the samples is then determined by comparing the OD of the samples to the standard curve.</p>
<b>Sample Types</b>	serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids
<b>Sensitivity</b>	4.52 pg/mL
<b>Expiration Date</b>	Please enquire.
