

Product Datasheet

Glucose Oxidase antibody (orb20688)

Description

Rabbit polyclonal antibody to Glucose

Species/Host

Rabbit

Reactivity

Fungi

Conjugation

Unconjugated

Tested Applications

ELISA, ICC, IHC, WB

Storage

Storage: The lyophilised PAb fraction may be stored at +4°C; prolonged storage at or below -20°C. Prior to use, an aliquot is thawed slowly at ambient temperature, spun down again and used to prepare working dilutions by adding sterile phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. Working dilutions should be stored at +4°C, not refrozen, and preferably used the same day. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the product

Note

For research use only

Clonality

Polyclonal

Source

Affinity purified antibodies of polyclonal rabbit antiserum to glucose oxidase from *Aspergillus niger*. Freund's complete adjuvant was used in the first step of the immunization procedure.

Uniprot ID**P13008****Hazard Information**

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. This datasheet is as accurate as reasonably achievable, but Nordic-MUBio accepts no liability for any inaccuracies or omissions in this information.

Expiration Date

12 months from date of receipt.
