## Product Datasheet

### Cortisol Binding Globulin antibody (orb21222)

**Description**

Precipitating polyclonal rabbit antiserum

(transcortin). Cortisol...

**Species/Host**

Rabbit

**Conjugation**

Unconjugated

**Preservatives**

Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.

**Form/Appearance**

Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Note**

For research use only

**Clonality**

Polyclonal

**Source**

Cortisol binding globulin is an alpha-1 glycoprotein with a molecular weight of 55,700. It is bonding and transporting cortisol in plasma. The mean concentration in adult serum is about 50 µg/ml. Elevated levels are observed in pregnancy. Freund's complete adjuvant is used in the first step of the immunization procedure.

**Uniprot ID****P08185****Hazard Information**

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. This datasheet is as accurate as reasonably achievable, but Biorbyt accepts no liability for any inaccuracies or omissions in this information.

**Expiration Date**

12 months from date of receipt.
