
Product Datasheet

Mouse Mab Human IgM (FITC) antibody (orb22284)

Description

Fluorescein isothiocyanate-conjugated

human IgM, isotype speci...

Species/Host

Mouse

Conjugation

FITC

Preservatives

Purified monoclonal mouse IgG1 kappa conjugated with fluorescein isothiocyanate, lyophilized from a solution in phosphate buffered saline (pH7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added.

Form/Appearance

Purified monoclonal mouse IgG1 kappa conjugated with fluorescein isothiocyanate, lyophilized from a solution in phosphate buffered saline (pH7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added.

Storage

Storage: The lyophilized product is shipped at ambient temperature and may be stored at +4°C; prolonged storage at or below -20°C. Dilutions may be prepared by adding phosphate buffered saline (PBS, pH 7.2). Avoid repeated thawing and freezing. If a slight precipitation occurs upon storage, this should be removed by centrifugation and will not affect the performance of the product. Diluted solutions should be stored at +4°C, not refrozen, and preferably used the same day

Note

For research use only

Isotype

IgG1

Clonality

Monoclonal

Source

Highly purified IgM isolated from pooled human serum

Hazard Information

This product is intended FOR RESEARCH USE ONLY, and FOR TESTS IN VITRO, not for use in diagnostic or therapeutic procedures involving humans or animals. This datasheet is as accurate as reasonably achievable, but Nordic-MUbio accepts no liability for
