
Product Datasheet

Lamin A and C antibody (FITC) (orb318756)

Description

Mouse monoclonal antibody against Lamin

Species/Host	Mouse
Reactivity	Bovine, Canine, Hamster, Human, Mouse, Rat, Sheep
Conjugation	FITC
Tested Applications	FC, ICC, IHC-Fr
Preservatives	Each vial contains 1ml FITC-conjugated anti lamin A and C monoclonal antibody in PBS containing 0.1% rAlbumin, 0.09% sodium azide. Approximately 100 tests.
Form/Appearance	Each vial contains 1ml FITC-conjugated anti lamin A and C monoclonal antibody in PBS containing 0.1% rAlbumin, 0.09% sodium azide. Approximately 100 tests.
Storage	Storage: The antibody is shipped at ambient temperature and may be stored at +4°C. For prolonged storage prepare appropriate aliquots and store at or below -20°C. Prior to use, an aliquot is thawed slowly in the dark at ambient temperature, spun down again and used to prepare working dilutions by adding sterile phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. Working dilutions should be stored at +4°C, not refrozen, and preferably used the same day. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance or the concentration of the product
Note	For research use only
Isotype	IgG1
Clonality	Monoclonal
Source	131C3 is a mouse monoclonal IgG1/k antibody derived by fusion of P3/X63.Ag8.653 mouse myeloma cells with spleen cells from a BALB/c mouse immunized with purified rat liver lamins.
Uniprot ID	P02545
