

Product Datasheet

Antibody Sampler Kit (orb342266)

Description	Antibody Sampler Kit
Conjugation	Unconjugated
Tested Applications	ELISA, WB
Immunogen	VDAC, GAPDH, alpha-Tubulin, HDAC-1, beta-Actin
Preservatives	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Form/Appearance	Liquid (sterile filtered)
Storage	Store vials at -20° C or below prior to opening. The primary antibodies contain a relatively low volume of reagent (25 µL). To minimize loss of volume dilute 1:10 by adding 225 µL of the buffer stated above directly to the vial. Recap, mix thoroughly and briefly centrifuge to collect the volume at the bottom of the vial. Use this intermediate dilution when calculating final dilutions as recommended below. Store the vial at -20°C or below after dilution. Avoid cycles of freezing and thawing.
Note	For research use only
Application notes	Each kit contains one unit of the following products: Anti-VDAC/Porin (RABBIT) Antibody (25 µL) Anti-Glyceraldehyde-3-Phosphate Dehydrogenase (GAPDH) (RABBIT) Antibody (25 µL) Anti-alpha-Tubulin (RABBIT) Antibody (25 µL) Anti-HDAC-1 (RABBIT) Antibody (25 µL) Anti-beta Actin (RABBIT) Antibody (25 µL) Anti-RABBIT IgG (H&L) (GOAT) Antibody Peroxidase Conjugated (2 mg)
Purity	All loading control antibodies included in this kit - VDAC/Porin Antibody, GAPDH Antibody, alpha-Tubulin Antibody, HDAC-1 Antibody and beta-Actin Antibody are affinity purified against there respective targets.
Dilution Range	ELISA: 1:5,000 - 1:25,000, WB: 1:500 - 1:5,000
Expiration Date	Please enquire.
