

## **Product Datasheet**

Glucoamylase antibody (Peroxidase) (orb344267)

Descriptionnts.

## www.biorbyt.com

Glucoamylase

Species/Host Goat

Reactivity Other

Conjugation HRP

Tested ELISA, WB

**Applications** 

Immunogen Glucoamylase [Rhizopus]

**Preservatives** 0.01% (w/v) Gentamicin Sulfate. Do NOT add Sodium

Glucoamylase antibody (Peroxidase)

Azide!

Form/Appearance Lyophilized

Concentration 1.0 mg/mL

**Storage** Store vial at 4° C prior to restoration. For extended

storage aliquot contents and freeze at -20 $^{\circ}$  C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4 $^{\circ}$  C as an undiluted liquid.

Dilute only prior to immediate use.

**Note** For research use only

**Application notes** Anti-Glucoamylase peroxidase has been tested by

ELISA and western blot. This product is assayed against 1.0 ug of Glucoamylase [Rhizopus] in a standard capture ELISA using ABTS (2,2'-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A

working dilution of 1:1,000 to 1:5,000 of the reconstitution concentration is suggested for this

product.

**Isotype** IgG

**Clonality** Polyclonal

**Purity** Glucoamylase is an IgG fraction antibody purified

from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Peroxidase, anti-Goat Serum as well as purified and partially purified Glucoamylase [Rhizopus]. Cross reactivity against Glucoamylase

from other sources is unknown.
