Biorbyt Goat anti Pyranose Oxidase antib...

**Description**nts. Pyranose Oxidase antibody (Biotin)

Species/Host Goat

Reactivity Bacteria

**Conjugation** Biotin

Tested ELISA, IP, WB

**Applications** 

Immunogen Pyranose Oxidase [E.coli]

**Preservatives** 0.01% (w/v) Sodium Azide

Form/Appearance Lyophilized

**Concentration** 1.0 mg/mL

**Storage** Store vial at 4° C prior to restoration. For extended

storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute

only prior to immediate use.

**Note** For research use only

**Application notes** Anti-Pyranose oxidase antibody has been assayed

against 1.0 µg of Pyranose Oxidase in a standard

capture ELISA using Peroxidase Conjugated

Streptavidin #S000-03 and ABTS (2,2'-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:70,000 to 1:350,000 of the reconstitution concentration is suggested for this

product.

**Isotype** IgG

**Clonality** Polyclonal

**Purity** Anti-Pyranose oxidase antibody is an IgG fraction

antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Biotin, anti-Goat Serum as well as purified and partially purified Pyranose Oxidase [E.coli]. Cross reactivity against Pyranose Oxidase from other sources is

unknown.
