
Product Datasheet

MIP-3 alpha (RAT) antibody (Biotin) (orb345245)

Description

MIP-3 alpha (RAT) antibody (Biotin)

Species/Host

Rat

Reactivity

Mouse

Conjugation

Biotin

Tested

ELISA, IP, NeA, WB

Applications

Western
Blot of
Mouse MIP
3α (RAT)
anti...

Immunogen

Anti-MIP-3α (RAT) Monoclonal Antibody was produced in rat by repeated immunizations with mature full length recombinant mouse MIP-3α produced in E.coli followed by hybridoma development.

Preservatives

0.01% (w/v) Sodium Azide

Form/Appearance

Lyophilized

Concentration

1.0 mg/mL

Storage

Store vial at 4° C prior to restoration. Restore with 0.1 mL of deionized water (or equivalent). For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Note

For research use only

Application notes

This purified antibody has been tested for use in ELISA, IP, western blot, and Neutralization. Specific conditions for reactivity should be optimized by the end user.

Isotype

IgG

Clonality

Monoclonal

Purity

This product was purified from concentrated tissue culture supernate by Protein G chromatography followed by extensive dialysis against the buffer stated above. This antibody is specific for mouse MIP-3α protein. A BLAST analysis was used to suggest cross-reactivity with MIP-3α from mouse sources based on 100% homology with the immunizing sequence. Cross-reactivity with MIP-3α from other sources has not been determined.
