

## **Product Datasheet**

ARHGAP22 (phospho-S397) antibody (orb345738)

## www.biorbyt.com

Western

Blot of Rabbit anti-

ARHGAP22

pS3...

**Description**nts. ARHGAP22 (phospho-S397) antibody

Species/Host Rabbit

Reactivity Human, Mouse, Rat

Conjugation Unconjugated

**Tested** ELISA, IF, IHC, WB

**Applications** 

Immunogen ARHGAP22 affinity purified antibody was prepared

from whole rabbit serum produced by repeated immunizations with a synthetic phospho-peptide corresponding to the region surrounding mouse

pS397 region of ARHGAP22.

**Preservatives** None

Form/Appearance Liquid (sterile filtered)

Concentration 1.07 mg/ml

**Storage** Store vial at -20° C prior to opening. Aliquot contents

and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior

to immediate use.

**Note** For research use only

**Application notes** Anti-ARHGAP22 pS397 antibody is tested for Western

Blot and Immunostaining and useful for ELISA.

Specific conditions for reactivity should be optimized by the end user. Expect a band approximately  $\sim$ 77.8 kDa corresponding to the appropriate cell lysate or

extract.

**Isotype** lgG

**Clonality** Polyclonal

**Purity** Anti-ARHGAP22 pS397 was affinity purified from

monospecific antiserum by immunoaffinity chromatography. This antibody is specific for phosphorylated ARHGAP22 at Serine 397. It also recognizes the S22->A mutation but not the S397->A mutation. A BLAST analysis was used to suggest cross-reactivity with Mouse, Rat and Human based on 100% sequence homology. Cross-reactivity with ARHGAP22 pS397 from other sources has not been

determined.
