Chicken IgG (H&L) antibody (Biotin) (orb346919)

Description	Chicken IgG (H&L) antibody (Biotin)	 <p>Western Blot of Unconjugated Anti-Chicke...</p>
Species/Host	Rabbit	
Reactivity	Gallus	
Conjugation	Biotin	
Tested Applications	ELISA, IHC, WB	
Immunogen	Anti-Chicken IgY / IgG whole molecule was produced by repeated immunization with Chicken IgY / IgG whole molecule in rabbit.	
Preservatives	0.01% (w/v) Sodium Azide	
Form/Appearance	Lyophilized	
Concentration	1.5 mg/mL	
Storage	Store secondary antibody at 4° C prior to restoration. For extended storage aliquot antibody and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.	
Note	For research use only	
Application notes	Secondary antibodies are ideal for western blotting, Immunohistochemistry, ELISA, Fluorescence Microscopy, Flow Cytometry as well as other antibody detection methods	
Isotype	IgG	
Clonality	Polyclonal	
Purity	Biotin Conjugated Anti-Chicken IgG / IgY secondary antibody was prepared from monospecific antiserum by immunoaffinity chromatography using Chicken IgG / IgY coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-biotin, anti-Rabbit Serum and Chicken IgG / IgY. Some light chain cross reactivity may be observed against chicken immunoglobulins.	
Dilution Range	ELISA: 1:500,000, IHC: 1:1,000 - 1:5,000, WB: 1:2,000 - 1:20,000	
Expiration Date	12 months from date of receipt.
