ChIP: Histone H3 K4Me2

Chromatin

Immunoprecipitation of Rabbit ...

Dot Blot of Rabbit Histone H3

[Dimethyl ...

Immunofluorescence

of Rabbit Anti-

Histon...

**Description**nts. Histone H3 K4me2 antibody

Species/Host Rabbit

**Reactivity** C. elegans, Human

**Conjugation** Unconjugated

**Tested** ChIP, DOT, IF, IHC, WB

**Applications** 

Immunogen Histone H3 [Dimethyl Lys4] affinity purified

antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic dimethylated peptide surrounding Lysine

4 of human Histone H3.2.

**Preservatives** 0.01% (w/v) Sodium Azide

Form/Appearance Liquid (sterile filtered)

**Concentration** 1.1 mg/ml

**Storage** Store vial at -20° C prior to opening. Aliquot

contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

**Note** For research use only

**Application notes** Anti-Histone H3 [Dimethyl Lys4] antibody is tested

in Western Blot, Immunofluorescence, Chromatin Immunoprecipitation, and Dot Blot. This antibody is useful in Immunocytochemistry. Specific conditions for reactivity should be optimized by the end user.

Expect a band approximately ~15.4 kDa corresponding to Histone H3 protein by Western Blotting in HeLa histone prep lysate or the

appropriate cell lysate or extract. Epi-Plus antibody production in collaboration with Novus Biologicals.

**Isotype** IgG

**Clonality** Polyclonal

Purity Anti-Histone H3 [Dimethyl Lys4] was affinity

purified from monospecific antiserum by immunoaffinity chromatography. This antibody reacts with human Histone H3.2. A BLAST analysis was used to suggest cross-reactivity with Human, mouse, and C. elegans. Predicted to react with many species including rat, chicken, Xenopus,

Drosonhila, and plant based on 100% sequence
