## Product Datasheet

### ZNF148 antibody (orb750490)

**Description**

ZNF148 antibody

**Species/Host**

Rabbit

**Reactivity**

Human

**Conjugation**

Unconjugated

**Tested Applications**

ELISA, WB

**Immunogen**

Purified full length ZBP-89 recombinant protein expressed in E.coli.

**Preservatives**

0.1% (w/v) Sodium Azide

**Form/Appearance**

Liquid (sterile filtered)

**Concentration**

90 mg/mL

**Storage**

Store ZBP89 Antibody at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

**Note**

For research use only

**Application notes**

This polyclonal antibody reacts with human ZBP-89 in a variety of tested immunological assays including western blot and ELISA. Although not tested, this antibody is likely functional in immunohistochemistry and immunoprecipitation. For immunoblotting a 1:5,000 dilution is recommended. A band at approximately 89 kDa corresponding to human ZBP-89 is detected. Human monocytes or macrophages or nuclear extracts from PMA treated U937 cells can be used as a positive control. For ELISA a 1:10,000 to 1:30,000 dilution is recommended. Researchers should determine optimal titers for other applications.

**Isotype**

Antiserum

**Clonality**

Polyclonal

**Purity**

Anti-ZBP89 antibody was prepared from monospecific antiserum by delipidation and defibrination. This polyclonal antibody is specific for human ZBP-89. Reactivity with ZBP-89 from other species has not been determined.
