
Product Datasheet

MORC3 antibody (orb750553)

Description	MORC3 antibody	
Species/Host	Rabbit	
Reactivity	Human, Mouse	
Conjugation	Unconjugated	
Tested Applications	ELISA, WB	
Immunogen	Morc3 whole rabbit serum was prepared by repeated immunizations with a human Morc3 recombinant protein.	
Preservatives	0.01% (w/v) Sodium Azide	
Form/Appearance	Liquid (sterile filtered)	
Concentration	70 mg/mL	
Storage	Store vial at -20° C or below prior to opening. This vial contains a relatively low volume of reagent (25 µL). To minimize loss of volume dilute 1:10 by adding 225 µL of the buffer stated above directly to the vial. Recap, mix thoroughly and briefly centrifuge to collect the volume at the bottom of the vial. Use this intermediate dilution when calculating final dilutions as recommended below. Store the vial at -20°C or below after dilution. Avoid cycles of freezing and thawing.	
Note	For research use only	
Application notes	Anti-Morc3 Antibody is tested for use in Western Blot and suitable for ChIP and IF. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately 107.1 kDa in size corresponding Morc3 by western blotting in the appropriate cell lysate or extract.	
Isotype	Antiserum	
Clonality	Polyclonal	
Purity	Morc3 antibody was prepared from monospecific antiserum by delipidation and defibrination. The antibody is specific for human Morc3 in expressed cell lysates. Cross reactivity is seen in mouse Morc3. Cross reactivity to other Morc proteins has not been determined.	
Uniprot ID	Q14149	
NCBI	NP_056173.1	
Dilution Range	ELISA: 1:20,000-1:50,000, WB: 1:1000-1:5000	
Expiration Date	12 months from date of receipt.
