

## Product Datasheet

### AnthraxPA antibody (orb753267)

<b>Description</b>	Rabbit polyclonal antibody to AnthraxPA
<b>Reactivity</b>	Virus
<b>Conjugation</b>	Unconjugated
<b>Immunogen</b>	Anthrax PA Antibody was developed by immunizing rabbits with synthetic peptides corresponding to amino acids 240-254 of the Anthrax PA protein (~83 kD). Anthrax PA Antibody is cleaved from the 83 kDa form to the 63 kDa form at amino acids 164-167. Thus the Anthrax PA antibody (made against amino acids 250-250) should recognize both the 83 kDa and 63 kDa PA forms, but not the 20 kDa cleavage fragment
<b>Preservatives</b>	200µl PBS containing 0.05% rAlbumin and 0.05% sodium azide.
<b>Storage</b>	Stability: Store at 4°C, stable for 6 months. For long-term storage, store at -20°C
<b>Note</b>	For research use only
<b>Application notes</b>	Applications: This polyclonal antibody can be used for detection of Anthrax PA protein in western blot, 1:1000
<b>Clonality</b>	Polyclonal
<b>Expiration Date</b>	12 months from date of receipt.
