

## Product Datasheet

# Receptor Tyrosine Phosphatase Beta antibody (orb76799)

<b>Description</b>	Mouse monoclonal antibody to Receptor Tyrosine Phosphatase Beta
<b>Species/Host</b>	Mouse
<b>Reactivity</b>	Rat
<b>Conjugation</b>	Unconjugated
<b>Tested Applications</b>	ICC, IP, WB
<b>Immunogen</b>	Embryonic rat brain proteoglycans
<b>Target</b>	PTPRB
<b>Preservatives</b>	Antibody grown in protein free medium, then concentrated and dialysed against PBS;
<b>Concentration</b>	1mg/ml
<b>Note</b>	For research use only
<b>Application notes</b>	P3X
<b>Isotype</b>	IgM
<b>Clonality</b>	Monoclonal
<b>Dilution Range</b>	Optimal antibody dilution should be determined by titration, however as a guideline try; WB: 1/1000 - 1/2500. Predicted molecular weight: 224 kDa
<b>Expiration Date</b>	12 months from date of receipt.
