

Product Datasheet

Mouse Tumor Necrosis Factor Receptor Superfamily, Member 1A (TNFRSF1A) ELISA Kit (orb778929)

Description	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Tumor Necrosis Factor Receptor Superfamily, Member 1A(TNFRSF1A).
Reactivity	Mouse
Range	78.13-5000 pg/mL
Tested Applications	ELISA
Concentration	5000 pg/mL
Note	For research use only
Application notes	standard: 5000 pg/mL. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Mouse TNFRSF1A. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Mouse TNFRSF1A. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Mouse TNFRSF1A, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm \pm 10nm. The concentration of Mouse TNFRSF1A in the samples is then determined by comparing the OD of the samples to the standard curve
Sample Types	Serum, plasma, tissue homogenates, cell lysates and other biological fluids.
Uniprot ID	P25118
Sensitivity	29 pg/mL
