

Product Datasheet

Human Eotaxin protein (orb80123)

Description	Eotaxin Human Recombinant produced in E.coli is a single, non-glycosylated polypeptide chain contain...
Conjugation	Unconjugated
Tested Applications	SDS-PAGE
Target	Eotaxin
Preservatives	The CCL11 was lyophilized from concentrated (1mg/ml) solution in water containing no additives.
Storage	Store at 4°C for up to two weeks. For long term storage, aliquot and store at -20°C, avoid freeze/thaw cycles.
Note	For research use only
Application notes	strong>Experiment Notes: Protein quantitation was carried out by two independent methods1. UV spectroscopy at 280 nm using the absorbency value of 1.013 as the extinction coefficient for 0.1% (1mg/ml) solution. This value is calculated by the PC GENE computer analysis program of protein sequences (IntelliGenetics). 2. Analysis by RP-HPLC, using standard solution of Eotaxin as Reference Standard.
Protein Sequence	The sequence of the first five N-terminal amino acids was determined and was found to be Gly-Pro-Ala-Ser-Val.
Purity	> 98.0% as determined by RP-HPLC and analysis by SDS-PAGE
Solubility (25°C)	It is recommended to reconstitute the lyophilized Eotaxin Human Recombinant in sterile H ₂ O not less than 100ug/ml, which can then be further diluted to other aqueous solutions.
Expiration Date	6 months from date of receipt.

SDS-PAGE analysis of Human Eotaxin prote...
